If the same Rights Holder repeatedly submits an Application for a ban on operations with a domain name without providing the court decision on injunctive relief, the Registry Operator may at its own discretion reject such Application.

10.2.5. If the Registry Operator receives the court decision on injunctive relief (or cancelation thereof), the Registry Operator shall enter into the Registry all required information on the restrictions set (or canceled) by the court. After the Registry Operator receives the court decision on injunctive relief, the restrictions will be effective until the injunctive relief is canceled in accordance with the laws of the Russian Federation.
