.MOSCOW RESERVED AND ALLOCATED NAMES REGISTRATION POLICY

This .MOSCOW Reserved and Allocated Names Registration Policy ("Policy") sets forth the terms, conditions, procedure and time frame for registration of reserved and allocated second-level domain names in the .MOSCOW top-level domain.

Terms and definitions used in this Policy:

Registration Key is a coded character set, which is an integral part of any registration application for a reserved domain name. Registration Key will be given to the User in accordance with the terms and conditions set forth herein. If a registration application does not contain a Registration Key, a reserved domain name will not be registered.

Reserved domain name (reserved domain) is a second-level domain name in the top-level domain .MOSCOW that is reserved in accordance with the .MOSCOW Reservation Policy published on the website of the Foundation for Assistance for Internet Technologies and Infrastructure Development in the section "Documents" at: <http://en.faitid.org/projects/moscow/documents>.

Allocated domain name (allocated domain) is a reserved domain whose Registration Key was given to the User in accordance with this Policy. An allocated domain remains a reserved domain until it becomes registered.

Other terms used herein are defined in the Terms and Definitions Used for the Registration of Second-Level Domain Names in .MOSCOW and .MOCKBA published on the website of the Foundation for Assistance for Internet Technologies and Infrastructure Development at the section "Policies" at: <http://en.faitid.org/projects/moscow/documents>.

1. General Provisions

1.1. Terms and procedure of service provision related to registration of reserved and allocated domain names shall be defined by: this Policy, ICANN Policies published on the website of ICANN at <http://www.icann.org>, and the Registry Agreement dated December 19, 2013 entered into by and between the Registry Operator and ICANN ("Registry Agreement").

When concluding registration agreements with Users, the Registrar shall not include in such registration agreements any provisions contradictory to this Policy, ICANN Policies, Registry Agreement, Registrar Accreditation Agreement, and .MOSCOW and .MOCKBA Registry-Registrar Agreement.

1.2. Registration of second-level domain names in the .MOSCOW TLD for end users shall be provided by ICANN-accredited Registrars that signed the .MOSCOW and .MOCKBA Registry-Registrar Agreement with the Registry Operator, and successfully passed verification in the Trademark Clearinghouse.

1.3. The Registrar shall have the right to engage third parties for interaction with Users, which does not acquit the Registrar from the obligations specified herein. The Registrar shall require such third parties to include in their registration agreements with Users all provisions required by this Policy, ICANN Policies, Registry Agreement, Registrar Accreditation Agreement, and .MOSCOW and .MOCKBA Registry-Registrar Agreement. The Registrar is fully responsible for all actions (or omissions) of such third parties and for all consequences of such actions (or omissions).

1.4. Rights and obligations of Registrars are listed in the Registrar Accreditation Agreement published on the website of ICANN at <http://www.icann.org/en/resources/registrars/raa/approved-with-specs-27jun13-en.htm>,

as well as in the Registry Agreement published on the website of ICANN at <http://www.icann.org/en/about/agreements/registries>.

1.5. In order to use the service of domain name registration, the User must conclude a registration agreement with a chosen Registrar or a third party engaged by the Registrar.

1.6. This Policy, as well as any exhibits hereto, may be modified, amended, updated, approved to a new version, or canceled at any moment at the Registry Operator's sole discretion. The Registry Operator is also entitled at any moment to approve and put into effect a new exhibit to this Policy. The Registry shall notify Registrars via email of any modifications, amendments, updates, or new versions of this Policy or exhibits hereto, as well as introduction of new exhibits hereto.

1.7. The Registrar shall notify its customers of any modifications, amendments, updates or new versions of this Policy or exhibits hereto, as well as introduction of new exhibits hereto no later than one (1) business day after the Registry Operator has made any changes pursuant to clause 1.6 hereinabove.

1.8. This Policy applies to all ICANN-accredited Registrars that signed the .MOSCOW and .MOCKBA Registry-Registrar Agreement with the Registry Operator, as well as to all Users and Registrants of second-level domain names in the .MOSCOW TLD.

1.9. If any provision of this Policy or exhibits hereto is found (either fully or partially) illegal, invalid or unenforceable, all other provisions remain in full force and effect.

1.10. The running of the time frames established by this Policy shall be determined according to the civil law of the Russian Federation. Moscow time is used for the time frames. The technical information specifying submission of applications and modification of the Registry will use Coordinated Universal Time (UTC).

3.3. If a domain name the User wishes to register matches the verbal appellation of any trademark listed in the Trademark Clearinghouse, such domain name may only be registered after the User confirms reading the Trademark Claim Notice.

3.3.1. The Registrar shall transfer to the Registry Operator any information on any domain name to be registered by the User prior to sending to the Registry a registration application and shall restrain from sending to the Registry such registration application before receiving from the Registry Operator any information on matching/mismatching of such domain name to be registered by the User to the verbal appellation of any trademark listed in the Trademark Clearinghouse.

3.3.2. When receiving from the Registrar any information on the domain name to be registered by the User, the Registry Operator shall verify if any such domain name matches the verbal appellation of any trademark listed in the Trademark Clearinghouse.

a) In case of such match, the Registry Operator shall send to the Registrar its notice on the need for the User to confirm reading the Trademark Claim Notice, as well as any information on the matching trademarks and on the rightholders thereof.

The contents of the notice must coincide with the Trademark Notice form provided in the Exhibit 3 hereto. The form related to submission of the notice to the User and the way of expressing the User’s consent to the registration of any domain name matching the verbal appellation of any trademark listed in the Trademark Clearinghouse shall be determined by the Registrar.
